MANITOBA POPULATION ESTIMATES - April 1, 2006

	April 06	January 06	April 05
POPULATION	1,179,681	up 1,333	up 3,279

NET MIGRATION	(January to March)	2006	2005
	Interprovincial	-1,634	-788
	Total	526	730

Manitoba's total population was estimated at 1,179,681 persons as of April 1, 2006, up 1,333 persons from the January 1, 2006 estimate. Population growth continues on an annual basis, with Manitoba' s increase since April 1, 2005 estimated at 3,279 persons, or 0.28%. A large portion of Manitoba' s estimated population gain of 3,279 persons over the past 12 months was the result of immigration (8,576 persons). The immigration flow of 8,576 from April 1, 2005 to March 31, 2006 is the best since at least the April 1, 1972 to March 31, 1973 period.

We recorded an estimated net loss of 1,634 persons from other provinces through interprovincial migration in the first quarter of 2006, a difference of 846 persons from the net loss of 788 persons in the first quarter of 2005. In the first quarter of 2006, Manitoba gained population on a net basis chiefly from Ontario (162) and Saskatchewan (136), while most of the losses were to Alberta (-1,119) and British Columbia (-671).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement were combined with interprovincial migration, Manitoba recorded an overall net migration gain of 526 persons in the first quarter of 2006.

Net international migration for the first quarter of 2006 was 1,934 persons, up from 1,456 persons in the first quarter of 2005. This improvement is due to the increase in immigration that went from 1,667 persons in the first quarter of 2005 to 2,145 persons in the first quarter of 2006.

Note to Users:

The net interprovincial migration flows for 2005 and the first quarter of 2006 are preliminary estimates. They will be revised starting in September 2006. Lower gross flows are expected with the revision.

MBS remains concerned that the net interprovincial migration estimates may be overstated.
